

COUNTER CONSPIRACY

Alleged by the Defense in the Haywood Case.

PINKERTON AGENCY BLAMED

Conspired to Destroy the Western Federation of Miners Under Retainer From the Mine Owners' Association and Citizens' Alliance.

Boise, Ida., July 1.—The alleged conspiracy of the Pinkerton National Detective agency under retainer from the Mine Owners' association and the Citizens' Alliance of Colorado and Idaho to destroy the Western Federation of Miners will be taken up when the trial of William D. Haywood is resumed.

The defense sets up this as the counter conspiracy of which Harry Orchard, it is charged, was simply an agent. The chief witness is Morris Egan, formerly a stenographer with the Pinkertons in Denver. It is charged that Friedman as an agent of the Pinkertons and the Western Federation of Miners secured the position in the Pinkerton employ for the purpose of spying on the Pinkertons. Some of the daily reports of the "operators" employed by the agency to join the Western Federation to attend meetings of the local unions and if possible to secure their own election to office in these unions Friedman has testified were given to him to copy. He made a copy for himself and now produces a number of these reports which have been marked for identification as evidence but have not been introduced in court. The admissibility of these copies will be argued at the opening of court.

By the introduction of Friedman on the last day of the first week of the trial for the defense a clearer light is thrown upon the position taken by the attorneys who are endeavoring to clear Haywood and the other officials of the Western Federation of Miners. It is clearly indicated that it is proposed to show that a conspiracy to exterminate the Western Federation went so far as to secure the indictment of the highest officials of the federation on the charge of murder.

It is charged that when Orchard was arrested on the charge of the murder of former Governor Steunenberg he was induced by the Pinkertons to make a confession implicating Haywood, Moyer, Pettibone, Steve Adams, Jack Simpkins and a number of other officers and members of the Western Federation.

Manufactured Evidence.

In furtherance of the mine owners' conspiracy it is charged further incriminating evidence was manufactured by the Pinkertons in order that Haywood, the secretary and treasurer of the Western Federation; Moyer, the president of the organization, and Pettibone, a former member of the executive board, might be convicted of a capital offense and executed while many other members of the federation were placed in jeopardy of trial on a charge of conspiracy.

A review of the evidence introduced in the course of the past five days brings the conclusion that counsel for the defense will endeavor to prove that the Pinkerton agency and the Mine Owners' association with the knowledge and approval of the governor of Idaho, the former governor of Colorado, the former adjutant general of Colorado and other influential persons, conspired to secure the execution of Haywood, Moyer and Pettibone and that incidentally the mine owners are directly responsible for the killing of fourteen men in the Independence depot.

The evidence so far introduced by the defense goes to prove that Or-

chard, knowing of the blowing up of the Bunker Hill and Sullivan concentrator in 1899, of the explosion in the Vindicator mine, of the blowing up of the Independence depot, of the killing of Lyte Gregory and of the explosion at Bradley's residence in San Francisco, accused himself of having committed the crimes and of the murder of seventeen men, when in fact he had little or no connection with any of them. Witnesses have sworn that Orchard was not at Wardner when the Bunker Hill and Sullivan concentrator was blown up; that the facts connected with the Vindicator mine tend to the conclusion that the explosion was accidental; that while Orchard may have been present when the Independence depot was destroyed, Steve Adams had been employed by the mine owners to blow up a piece of useless property, but that a blunder resulted in loss of life; that Lyte Gregory was murdered by persons connected with the United Mine Workers and not at the instance of the Western Federation of Miners; and that Orchard, possessing a mania for boasting of great crimes, was lying when he said he had any connection with the Bradley explosion.

THE SQUIRES-BURNS FIGHT

Slashing Contest Looked for From the Very Start.

New York, July 1.—Three events of international interest as well as a score of others scarcely less important are on the sporting cards for the week. These are the heavyweight fight on July 4 between William Squires, the Australian, and Tommy Burns, American; the Grand Prix race, under the rules of the Automobile Club of France, and the match play in England between the tennis representatives of England and America.

The Squires-Burns fight will take place at Colma, just outside San Francisco, at 2 o'clock July 4. If Squires should win and win so decisively as to stamp him a great fighter it is not unlikely that James J. Jeffries would be coaxed from his retirement to battle for the championship which he relinquished only when there were no others worthy of his skill. The possibility of drawing Jeffries into the ring lends the strongest element of interest to the outcome of the Squires-Burns fight.

The two principals in the coming fight are almost of a size, weighing close to 180 pounds, both short and stockily built. Squires is described as not much of a boxer, but a rugged, rushing fighter, never giving ground before an adversary and possessed of enormous strength. Burns, on the other hand, while also strong and aggressive, depends more upon his cleverness than upon his strength. He is a much more skillful boxer than Squires and it is this factor and the familiarity of the public with his record that has made him the favorite over the Australian at odds of 10 to 8. A slashing fight is looked for from the very start.

AUTO PLUNGES INTO LAKE

Two Minnesota Men Injured, One of Them Probably Fatally.

Ortonville, Minn., July 1.—Charles and Walter Bucholz of Appleton, Minn., while riding in their automobile lost control of the machine and it went over a forty-foot embankment into twenty feet of water in Big Stone lake and they were so severely injured that the former is not expected to live.

The three-year-old son of Walter Bucholz was with them in the plunge, but escaped without injury.

Fast Train Wrecked.

Fayetteville, Ark., July 1.—The Frisco's fast southbound train was wrecked five miles from here as the result of a washout. The injuries were confined almost entirely to cuts and bruises. R. R. Weems of Van Buren, Ark., was seriously injured.

DANGER OF EPIDEMIC

Result of Strike of Garbage Wagon Drivers.

REFUSE ON THE STREETS

Sends Nauseating Stench in Homes and Hospitals of New York—Health Department Unable to Cope With the Situation.

New York, July 1.—As a result of a strike of 2,000 garbage wagon and an equal number of ice wagon drivers, New York is in danger of an epidemic.

The health department is exhausting its resources to clean the streets but the best that Dr. Darlington could promise was that 300 men would be at work within the next twenty-four hours. Such a force will make little headway, as 755 carts are required to remove each day's accumulation and the work is six days behind.

The health department took hold late Friday and since has used its police powers vigorously and its emergency fund of \$85,000 without stint but so far has been unable to meet conditions.

Though the mayor has declared that the law does not permit dealings with civil service employees who are on strike and the street cleaning department refuses to, it is intimated that a settlement might be arranged.

A conference between Commissioner Craven of the street cleaning department and a committee representing the strikers will be held.

Situation Growing Worse.

The situation grows hourly worse. What work was done was in the vicinity of Chinatown on the East Side. Meantime the waste accumulated in other streets. In places refuse was piled high and elsewhere strewn from curb to curb. Unable to do better, the health squads scattered disinfectants through miles of highways.

Lower temperatures had a beneficial effect, though a most disagreeable stench found its way into many homes and into the East Side hospitals.

Acting Sanitary Inspector Bensen contracted with a Philadelphia employment agency for 1,500 men. Of these 300 were to have arrived at noon Sunday but did not, but word was received from Philadelphia that 100 men would be sent. These, with 200 others Commissioner Craven expects to have, including the 160 who remained at work when the others quit, will make a working force of 300.

Dr. Darlington said: "I do not believe there is any immediate danger of an epidemic, but the situation is grave and presents possibilities of imminent peril."

About 200 carts are kept moving. The strikers met and were in high spirits. They voted to stand firm.

The American Ice company announced that it had secured several hundred drivers and would start out as many wagon loads of ice.

FRANCIS MURPHY DEAD.

Noted Temperance Lecturer Passes Away in Los Angeles.

Los Angeles, Cal., July 1.—Francis Murphy, the temperance lecturer, is dead here.

Francis Murphy first came into prominence as a temperance advocate in Pittsburg in 1876. Under his leadership a blue ribbon propaganda resulted in thousands of men signing the "Murphy pledge." Fifteen meetings were held in Library hall, a theater since abandoned, following which a call for funds was made to carry on the campaign in other cities. In a few minutes wealthy men who had become followers of Mr. Murphy subscribed \$15,000. Subsequently meetings were held throughout the United States.

STREET CAR DERAILED.

Dozen Persons Badly Injured at Brockton, Mass.

Brockton, Mass., July 1.—A dozen persons were badly hurt in the derailment of an electric car of the Old Colony street railway line here. A car bound for Whitman left the track at Pleasant street just outside the city and bounded across the street to the curbstone. The most seriously injured are:

Mrs. Mary A. Cavanaugh, Mrs. Elizabeth C. Gybron and Mrs. James McGlenon.

These three women are officers of the state branch of the ladies auxiliary of the A. O. H.

Cooler June in Many Years.

Washington, July 1.—The weather bureau announced that the month just closed was the coolest June of record in Washington, D. C., in the past seventy-five years and that the same is probably true of New England, the Middle Atlantic states and the Lower Lake region. In other parts of the United States the temperatures were also lower than usual.

PERPLEXES ARMY EXPERTS

Report That Peace Conference Might Prohibit New Rifle Bullet.

Washington, July 1.—The report from The Hague that a disposition exists in certain quarters to raise the question of prohibiting the rifle bullet adopted by Germany, Great Britain, France and America has served to perplex the experts of the army and navy ordnance bureaus here. Even the medical officers in both services are at a loss to conjecture what reasonable objection can be found against the use of the new cupro-nickel sharp pointed 1906 model bullet. It was reported from The Hague that this bullet was more dangerous than the "dum-dum" bullet but the experts here are a unit in declaring that the new bullet is if anything more humane than the old so far as concerns the nature of the wound inflicted.

But according to the ordnance officers in one way at least the new bullet is apt to be more dangerous than the old and that is in killing or wounding more soldiers.

It was designed expressly for that purpose. This is not because the bullet deforms upon striking an object, but because of its high velocity, it has a remarkably flat trajectory. The consequence is that traveling on an almost horizontal plane, the new bullet would strike an object within 1,000 yards that the old bullet would pass over.

LATIN-AMERICAN COUNTRIES

Opposed to Inviolability of Private Property at Sea.

The Hague, July 1.—Profiting by the holiday, the leading plenipotentiaries met privately to exchange views on the principal questions before the peace conference. Joseph H. Choate and General Horace Porter conversed at length with Sir Edward Fry and Sir Ernest M. Satow of the British delegation, Professor de Martens of Russia, Count Torelli of Italy and Dr. Krieger of Germany, while William L. Buchanan, who was the chairman of the American delegation that attended the Pan-American congress, discussed affairs with several of the South American delegates.

There seems to be opposition to the proposition of the inviolability of private property at sea on the part of several Latin-American countries, which having no merchant marine, think that the abolition of the right of capture and of privateering would deprive them of a weapon dreaded by their enemies. The triple alliance, however, strongly supports this proposition. Among the secret documents distributed to the delegates are definite declarations to that effect.

WOUNDS HIS SWEETHEART

Wisconsin Man Then Ends His Life With a Bullet.

Amery, Wis., July 1.—Magnus Thompson of the town of Black Brook shot and seriously injured Miss Minnie Flannum while she was at the home of her parents, Mr. and Mrs. Hans Flannum of that town. Thompson fired two shots, both hitting the girl. After shooting the girl he shot himself in the head, dying instantly.

The deed is attributed to jealousy and disappointment, as the young couple had some disagreement and the following note was found in Thompson's pocket:

"If Minnie and I cannot live together we can die together, and I wish to be buried by her side."

An inquest was held by Amery officials, who rendered a verdict of suicide. Miss Flannum was taken to St. Luke's hospital in St. Paul, where she is in a serious condition.

The families of both are influential people.

DRIFTS SEVERAL MILES.

Youthful Aeronaut Makes an Ascent in His "Skycycle."

Columbus, O., July 1.—Cromwell Dixon, the fourteen-year-old aeronaut, made an ascent in his "skycycle." He was carried up more than a mile by an adverse air current and drifted several miles before he was able to land. The propeller of the airship is run by foot power and Dixon has been able to handle it readily in a light breeze, but after the ship had ascended a short distance it was caught by a strong current of air, which whirled it about and it shot rapidly upward.

BOY KILLS A FARMER.

Posse Searching for the Slayer and a Lynching Is Threatened.

Columbia, S. C., July 1.—The body of Richard Williams, a farmer about forty years old, was found in the yard of a negro family named Baker near Springfield. It is alleged that when hailed Williams refused to give his name or his business, whereupon a boy of the family shot him.

It is said that a posse of fifty men are in search of the boy and a lynching is threatened.

Those Muslin Wear Bargains

If you realized the price you will have to pay for muslin underwear next spring you would not only buy enough for present use but sufficient for your next season's wear.

These are all popular priced garments. See them on the center sales tables.

"Michael's"

MAY BE REACHING ITS END

Prostration of Investment Demand Believed to Be About Over.

New York, July 1.—There has been a stirring of speculative interest in the market in the week just passed, which is regarded as testimony of a hopeful spirit that the long prostration of investment demand may be reaching its end. The exigencies of the mid-year money settlements, or the fear of them, has delayed the manifestation. It was easy to discover through the restraint on the market's activity that prices were firmly held and that the amount of stocks for sale was insignificant. The tentative attempts of the professional operators for some time past have been unsuccessful in dislodging any important offerings. The near approach of the end of the half year found such continued tranquillity in the money markets in spite of huge requirements to be met in providing resources for the disbursement of dividend and interest payments that the professional element was emboldened to undertake a campaign on the long side of the market. The professional character of this undertaking and its largely experimental nature are quite generally recognized in the financial districts. It is expected that the large sums to be distributed in profits during the coming month will seek reinvestment in securities and it is to anticipate this demand that professional operators have been taking on stocks and putting up prices.

Ransford Hair Tonic

CAPITALISTS

VISIT FALLS

Party From New York Taken Over Minnesota & International Railroad

WERE GUESTS OF MR. BACKUS

Names Cannot be Learned—Thought to be Capitalists Interested in Paper Mills

A Great Northern private car, No. 919, came up on the N. P. Saturday night. It contained a party of New Yorkers who were the guests of Mr. Backus, the owner of the town site of International Falls. Mr. W. H. Gemmell accompanied them from St. Paul, going through to International Falls with the party. Supt. Strachan went with the special train on the Minnesota & International, taking his private car along. He remained in Littleforks while the party went in their private car to Littleforks on a construction train and took the boat from there to International Falls.

Nothing could be learned this morning as to the identity or purpose of the party, which returned last night, but from the fact that orders were received here for No. 10 to drop the car at Watab it is presumed that they were gentlemen connected with the proposed paper mill at International Falls.

MANAGER WAS IN BRAINERD

Came Here Today to Get Trucks Heavy Enough to Carry the Monster Boilers

Mr. Kruse, the manager for the Rogers-Brown Ore company, the concern which is to put down the shaft at Rabbit lake, was a Brainerd visitor today. He was here to secure some heavy trucks to remove the big boilers now on track at Deerwood to the scene of operations on Rabbit lake. Some idea of the magnitude of the undertaking is shown by the fact that while the Pickands-Mather company put in two 36 horse power boilers at their shaft on section 8 two years ago the Rogers-Brown company is installing two 70 horse power boilers. The company has several drills at work and there is every prospect for more to start in the near future. One of the Oreland Mining company's drills is also at work for the Rogers-Brown Co.

W. C. White and T. F. Cole, of Deerwood, were also in the city, and while neither would go into details both were decidedly optimistic in their manner of discussing the Cuyuna range.

Mr. Kruse was successful in his quest and an outfit of heavy trucks will leave for Deerwood to undertake the job of moving the machinery.

WM. ERB MOVING

Laurel Street Harness Shop Being Moved to Building Just South of the Columbian Block

Wm. Erb is moving his harness shop into the building formerly occupied by the Dairy restaurant on Sixth street just south of the Columbian block. Mr. Erb rented the building just before he was taken sick and his severe illness has retarded the moving. While not yet able to walk Mr. Erb is able to be moved around in an invalid chair and is personally superintending the moving. C. B. Rowley is looking after the transferring of the fixtures.

FIXING GEMMELL'S OFFICES

Rooms Formerly Occupied by City Library are Being Refitted for Occupancy by Gen. Man. of M. & I.

The rooms in the Northern Pacific depot, which were formerly occupied by the city library are being thoroughly overhauled by a crew of men who are here for that purpose, and are being put in readiness for occupancy as the office of General Manager Gemmell, of the Minnesota & International when he removes to this city August first. They are being repapered and the woodwork refinished and will make light and airy quarters for him. The halls on the second floor of the building are also being scraped and will be given two coats of cold water paint and new floors has been laid in portions of the hall.

DIED AT CROSS LAKE

E. J. Lovingood Died Saturday of Consumption--Remains Were Brought Here for Burial

Fred Hagadorn arrived in this city this morning with the remains of his father-in-law, E. J. Lovingood, who died at Cross Lake Saturday afternoon of tuberculosis of the lungs. He had been ill for a long time. The deceased was a brother-in-law of A. E. Whitney of East Brainerd, but had no nearer relatives, his wife and children being dead. He was 60 years of age at the time of his death. The funeral will take place from Losey & Dean's undertaking parlors tomorrow afternoon, services being conducted at the grave by Rev. Chas. Fox Davis.

American Soldier Wounded.

Havana, June 29.—During a clash with the police of Holguin in the province of Santiago, resulting from the alleged refusal of four American soldiers to pay for drinks, Corporal P. J. Green was shot and mortally wounded, and his companions were placed under arrest.

BRAINERD TWENTY YEARS AGO.

Items of Interest Gleaned From The Dispatch Files of Twenty Years Ago

The machinery for Mahan & Wilson's factory is on the ground and being placed in position.

The Y. M. C. A. reception tonight will be a very pleasant occasion if appearances indicate anything.

The court house grounds are being graded up and when finished the improvement will be very noticeable.

Part of the iron for the street railway has arrived. Brainerd and East Brainerd will soon be connected by "hoss" car track.

The merchants have finally come to an understanding and the stores will be closed at 9 p. m. instead of 8 as was at first proposed.

Miss Annie Lawrence entertained a select number of her friends at her father's residence, corner Seventh and Norwood streets, on Thursday evening. A very pleasant time was enjoyed by all present.

Geo. Mosher, of Motley, is in the city today.

Dr. Courtney is visiting his old home in Michigan.

Ed. Bennett is in the city after a few weeks sojourn in Dakota.

Harry Whiteley and Frank White have been spending the week at Gull lake.

Miss Ada Frasier returned to her home in Wheeling, West Virginia, yesterday.

H. I. Cohen is visiting his parents in Minneapolis.

Mrs. Elizabeth Cammish, of Birds Island, mother of Mrs. J. J. Stearns, is in the city.

Dr. C. E. Lum, of Wadena, brother of Leon E. Lum, spent a few days in the city the past week.

C. H. Conklin returned to Brainerd for his family Sunday and returned with them to Wadena Monday.

Uncle Ed. White and I. U. White and family, will spend the Fourth at Gull lake at Mr. White's summer resort.

John Cochran expects to start east in a few days and will visit his old home which he has not seen for seven long years.

H. H. Mandell, of Syracuse, N. Y., has arrived in this city to accept a position as bookkeeper with the hardware house of D. M. Clark & Co.

Mr. and Mrs. Frank Rhodes, of Hornellsville, N. Y., are expected to arrive in the city tonight on the Duluth passenger. Mr. Rhodes is a former Brainerd boy and a son of J. D. Rhodes.

Mrs. T. R. Congdon started for Thurston, N. Y., this morning, announcing the dangerous illness of her mother. Mrs. Congdon expected her parents here to spend the summer until she received word of her mother's sickness.

Geo. Keene is now proprietor of the feed store on Fifth street.

W. A. Cummings took charge of the Empire restaurant this morning.

C. E. Cole, the Fifth Street Grocery, has an announcement in this week's DISPATCH.

The broncho race on the Fourth will be a very interesting feature. With five or six carloads of bronchos in the city it will be a wonder if an exciting race cannot be furnished.

The mayor has issued a proclamation forbidding the use of fire crackers or any kind of explosive between Main and Maple streets from Fourth to Eighth streets.

MARRIED

RIBBEL-BRADLEY—At the residence of the bride's parents, in Cheston, Ind., on June 28, Dr. Henri Ribbel, of Brainerd, and Miss Mattie Bradley, of the former place.

Dr. and Mrs. Ribbel arrived Wednesday evening and are nicely located in their new residence on Fifth street North. The bride is a cousin of Mrs. A. J. Sovereign, of this city, and will be remembered by many of our people as having visited here during the past winter. Congratulations are being showered down upon the newly married couple from every direction.

CUMMINGS-FROST—By Judge Fleming Sunday evening, June 29th, W. A. Cummings and Miss Francis Frost, both of this city.

Under the head of "Sayings and Doings of People" the following are found:

Dr. Groves says the people don't know him these days since he shaved his beard off.

L. W. Burrell says he knows a thing or two about boats but Fred Slipp and Leon E. Lum seem to doubt it.

C. Milsaugh says he wants to have hold of his horse the next time Jim Hayes goes to celebrating and fills the air with fireworks.

The Fourth of July committee says that the bird of liberty will scream as she never screamed before on Monday next. The city council will help make the bird yell by generously donating funds to help the celebration along.

A MILITIA COMPANY

Nothing less than a blueberry war would now frighten the inhabitants of the city. Brainerd has a militia com-

MUSIC AND DRAMA

Opera House Tonight

The vaudeville and moving picture show which was billed to appear at the opera house last Thursday, will open their engagement tonight. A new picture machine has been secured and the original program will be given in its entirety. There will be two performances, the first commencing at 8 o'clock and the last at 9:20. In addition to the moving pictures and illustrated songs there will be specialty acts of merit including Chester Clyde, the character change artist, "Zacad" the magician; and as a special outside attraction, "King Spot" the diving dog will do a little stunt outside of the opera house just before the first performance.

USING MAILS TO DEFRAUD
President of St. Paul Automobile Club
Arrested.

St. Paul, June 29.—Lewin A. Wood,
president of the St. Paul Automobile
club and referee at the automobile
races held at the state fair grounds,
was arraigned before United States
Commissioner Spencer on a charge of
using the mails to defraud. He entered
a plea of not guilty and was re-
leased on \$5,000 bail to appear for a
hearing at 10 o'clock next Friday.

The arrest was made in connection
with prosecutions commenced by the
government against the Wisconsin
Grain and Stock company. Seven
warrants were issued on application
of P. A. Ewart, assistant district at-
torney. The warrants were for the
arrest of Lewin A. Wood, George W.
Wood, Clinton D. Phelps, as president
of the Wisconsin company; Martin P.
Quigley, cashier and treasurer of the
company; Charles T. Kelley, stock
and grain buyer of the company;
Bruce D. Tuttle, as local manager of
the company, and H. P. Ernberger,
secretary and agent of the company
in Superior, Wis.

The warrants were served on Tut-
tle and Quigley at their place of busi-
ness, Fifth and Robert streets. They
went before Commissioner Spencer
and entered their plea. L. A. Wood and
G. W. Wood gave themselves up with-
out the formality of having a deputy
serve warrants on them. Bonds in the
sum of \$5,000 were required from the
two Woods and \$3,000 from Quigley
and Tuttle.

The warrants for Phelps and Kelly
have not yet been served.
The contention of the government
is that the defendants conspired to de-
ceive and that they used the United
States mails in carrying on the decep-
tion. It is claimed that the state-
ments sent to customers and purport-
ing to be memoranda of actual sales
of stock and grain were not genuine
and that there had been no actual
sales of stock.

PANICKY CONDITION.
Exists in All the Central American
States But One.

Washington, June 29.—Central
American diplomatic representatives
in Washington associate the report
coming from Nicaragua of the fitting
out of three vessels for a movement
against San Salvador with the news
coming from the latter country a week
ago apprising the Salvadorean minis-
ter here of another projected expedi-
tion under the direction of President
Zelaya against Salvador.

Since then so far as learned here
no further information has been re-
ceived of the proposed expedition, al-
though the Salvadorean officials have
been put on their guard and advices
received several days ago from the
American diplomatic officials in Cen-
tral America indicated that both
Guatemala and Salvador were massing
troops on their frontiers.

The state department officials say a
panicky condition exists in all the
Central American states except Costa
Rica, although no formidable move-
ment appears to be on hand.

How's This?
We offer One Hundred Dollars Reward for any
case of Catarrh that cannot be cured by Hall's
Catarrh Cure. F. J. CHENEY, Toledo, O.

HORSE HISTORY QUEST.

American Museum After Lost Link In
Evolution of Equine Family.

Determined efforts to find the missing
link in the evolution of the horse are
being made by an expedition from the
American Museum of Natural History,
which recently arrived in South Da-
kota, says the New York Herald. The
filling out of that gap would be an
achievement in paleontology which
would be regarded as a triumph for
any scientific institution, and there is
much activity among museums and
universities in the search for a per-
fect fossil skeleton of the animal required
to complete the chain.

There have been found on this con-
tinent a few small bones and teeth of
this primitive horse, which has been
called the parahippus, but no speci-
mens sufficiently perfect to establish
the type have yet been unearthed. Its
place in the scale of evolution is be-
tween the mesolippus and the proto-
hippus.

Through the efforts of Professor Henry
Fairfield Osborn and other well
known scientists have been traced the
various steps. If a parahippus be
found there will still be a few types
missing, but the discovery of this an-
cestor will be sufficient to demonstrate
an interesting and important theory of
evolution.

Mr. Albert Thomson is in charge of
the field party, and three assistants
have been assigned to aid him. The
country to be explored is southeast of
the Black Hills and has many outcrop-
ings of the lower miocene period. The
explorers will devote at least four
months to their task. The museum
authorities wish to complete the col-
lection of evidence as rapidly as possi-
ble. Such pioneers in that branch of
study as Professors Cope, Marsh and
Osborn have attracted the notice of
the scientific world by their achieve-
ments in tracing the horse from the
primitive type, the eolippus, a foxlike
animal eleven inches in height, to the
present thoroughbred. The search is
of especial interest in the United
States, as everything indicates that the
horse originated in North America and
that all of his kind in the old world
are descendants of the steeds which
went there over the land where now
rolls Bering Strait.

JOKE ON THE RAILROADS.

Humorous Individual Gave Big Order
For Cars and Disappeared.

A neatly dressed man approached
the agent of the Chicago and North-
western railroad at Fremont, Neb., the
other day and gave an order for a
string of cars that nearly took away
the breath of the agent, says a Omaha
special dispatch to the New York
Times. He said he was W. H. Clark,
an Idaho horseman, and had a string
of horses quartered in the next county
which he intended to ship to Maine.
He wanted seventeen of the best equip-
ped palace stock cars, five box cars,
a hotel Pullman and various trimmings.

The agent sent him to General Agent
Miller at Omaha, and there he met
agents of the Pennsylvania, New York
Central and other eastern roads, who
wanted to handle his train after it
left Chicago.

The entire state of Illinois was
scoured to get the equipment required,
and this was assembled at Chicago.
Then a telegram was sent to Clark
that his train was ready. It was not
delivered. Clark had disappeared. No
trace of his herd of horses can be found.

World's Highest Observatory.

The international observatory on the
summit of the Monte Rosa, in Italy,
perched at a height of 15,200 feet, is
completed and will be opened soon, says
the New York Tribune. The construc-
tion of the observatory, which is the
highest in the world, is due to the
generosity of Queen Margherita of
Italy, who, it is said, will attempt the
ascent of the Monte Rosa in order to
open the building.

American English.
[Prince William of Sweden will come to
this country to perfect himself in Ameri-
can English.—News Note.]

Say, Bill!
Come in;
The house
Is on the house,
And you are it
More than a little bit.
By golly, kid!
We'll take off the lid
Of the Pierian spring.
Also the well of English undefiled,
Open plumbed and every tied,
And you don't find the real thing.
Take it from us, Willie,
You ain't the stuff,
And you've got language plenty enough.
But, say!
You ain't built that way,
And when you see
Our language lay out, hully gee!
You'll cop it off and hand the swat
To every part of speech that's not
Joe-Joe Addison on the spot.
Say, Bill, you're the goods;
You're in the woods
Just at present, but when you strike
On your American hike,
By gum!
You'll be going some.
Get into the push, Bill; hit the hurry;
Hustle the haste and shove the scurry;
You're out for the stuff.
And you won't be gaffed
If you butt right in.
For the language graft,
For we like the chap
That's got the sand,
And it's him, you bet,
For the happy hand;
Prince or pauper, he's just the same
To our Uncle Dudley, if he's real dead
game.
Pray, get the habit, and when you return
And the old folks at home wake up to
your speech,
They'll call in the neighbors and say,
With a yearn:
"Catch on to our Willie—say, ain't he the
peach?"
You may think that's a Josh.
But it's the real kibosh.
Now we have told you what to do.
It's up to you, Prince, up to you.
See?

—W. J. Lampton in New York World.

AFTER MANY TRUSTS

Federal Government to Pros-
ecute Big Combines.

STANDARD OIL IS FAVORITE

Rockefeller's Monopoly a Shining Mark
for the Trust Buster—Fifteen Dif-
ferent Corporations Are Slated for
Investigation by Officials.

Washington, July 1.—The adminis-
tration's campaign against corpora-
tions will be continued without let-up
during the summer. Warm weather
has set in, "dog days" are approach-
ing, the White House is closed, the
better part of official Washington has
gone on vacation, but the trust buster
has made arrangements to stick to his
post until the snow flies.

The government is prosecuting, pre-
paring to prosecute or is investigat-
ing the operations of alleged combina-
tions in restraint of trade as follows:

The Harriman railroads, Standard
Oil, the meat trust, the steel trust, the
tobacco trust, the spool trust, the um-
brella trust, the anthracite coal trust,
the bituminous trust, the harvester
trust, the United Shoe Machinery com-
pany, the powder trust, the Cotton
Exchange of New York and other com-
mercial associations throughout the
country, the watch trust and the sugar
trust.

In fact the government is scrutiniz-
ing the business methods of the corpo-
rations that control the avenues of
transportation as well as those that
enjoy a monopoly or something ap-
proaching a monopoly of fuel, food
and other articles of every day con-
sumption in the United States.

Scope Widening Daily.

The investigation is all-embracing.
Its scope is widening daily. For ex-
ample, during the past week announce-
ment was made formally that the con-
cern or concerns that control spool
thread cotton will soon be brought
face to face with a suit in the federal
courts involving alleged violation of
the provisions of the anti-trust act.
The powder trust also is to be hauled
into the courts. It made the blunder
of holding up the government, charg-
ing Uncle Sam exorbitant rates for
powder and dynamite.

The Standard Oil is the favorite of
the trust buster. Each of the three
arms of the trust buster has taken a
crack at the Standard. The attorney
general took the Standard into court
and now the judge before whom the
Standard was tried is trying to figure
out just how much Rockefeller, Rogers
and the rest of the Standard crowd
can reasonably be fined.

Before Standard Oil was taken in
hand by the attorney general, the
commissioner of corporations had
charge of the company. The commis-
sioner has issued two or three reports
telling of the iniquities of Standard
Oil. Another report bearing on the
prices of oil and the profits of the
trust is in the printer's hands.

The interstate commerce commis-
sion also has had its fling at Standard
Oil. It is laying the pipes for another
onslaught on Standard Oil.

KELLY UNDER ARREST.

Motorman Blamed for Fatal Wreck
Captured in San Francisco.

San Francisco, July 1.—Paul Kelly,
wanted by the New York police on a
criminal charge growing out of the
death of six persons in an elevated
railroad wreck in January, 1906, was
arrested here by local detectives and
is held pending orders from New York.
Kelly admitted his identity.

The day before the strike of the
railroad men in New York Kelly, who
was a union motorman, was in charge
of a train that collided with another
one. Six people met death and it was
charged that Kelly wilfully disobeyed
orders. He disappeared and Commis-
sioner Bingham of the New York po-
lice department offered a reward of
\$500 for his arrest.
Kelly said that he was willing to re-
turn to New York and would waive ex-
tradition.

WILL RETURN TO WORK.

Thousands of Strikers at Cleveland
Obtain Shorter Hours.

Cleveland, July 1.—Thousands of
strikers will return to work this week
as a result of a mass meeting of strik-
ers held here. The agreement affects
all trades where craftsmen have
stopped work to obtain fewer hours
working and more pay, but affects the
striking shipbuilders most. The strik-
ers made concessions. In general
the working hours of a week are cut
from sixty to fifty-four, with a slight
increase in wages. During the past
sixteen weeks nearly 10,000 men have
been upon strike.

TWO BROTHERS KILLED.

Michigan Boys Run Over by an Ex-
cursion Train.

Battle Creek, Mich., July 1.—Earl
W., aged ten, and Robert D., aged six,
sons of Joseph Wiggins, were killed
here by being run over by a
Grand Trunk excursion train.

Opposed to Annexation.

Brussels, July 1.—Despite the oppo-
sition of Deputy Vandervelde, the So-
cialist leader, and other deputies, the
National Socialist congress at a
stormy session adopted a resolution
against the annexation by Belgium of
the Congo Independent state.

GREAT AUTOMOBILE RACE.

Preparations Complete for the Grand
Prix Contest in France.

Dieppe, France, July 1.—Prepara-
tions have been completed for the
Grand Prix contest of the Automobile
Club of France on Tuesday, which
promises to be the hardest fought and
fastest race yet run. The Madrid-
Paris competition last year when the
cars were driven half the time through
a surging sea of people was the death
blow to straightaway speed racing in
France. This year a beautiful, closed
triangular course has been selected. It
measures seventy kilometers and
must be circled ten times. The road-
way is in perfect condition, but has a
few dangerous turnings and many
rapid curves. It is expected that
Dunay's record for speed over the
Ardenne course will be broken. The
most elaborate arrangements will be
made to prevent mobs from invading
the track. Eight thousand soldiers
will be stationed at forty-foot inter-
vals along the course and no person
within the enclosure will be allowed
to cross till the race is finished.

There are thirty-eight entries, re-
presenting fifteen firms, including
twenty-four French, five Italian, three
Belgian, three German, two English,
one Swiss and two Americans, Elliott
F. Shepard and Walter C. Christie.

The pilots include practically all the
world cracks, among them Nazarro,
Szliz, Lancia, Wagner, Jenatzy, Rou-
gier, Dunay and Hemery.

Tams Bixby Retires.

Muskogee, I. T., July 1.—At 12
o'clock Sunday night Tams Bixby, for
ten years a commissioner for the
Five Civilized tribes, retired. J.
George Wright, the present Indian in-
spector, succeeds Mr. Bixby.

TELEGRAPHIC BREVITIES.

The pope Sunday entered upon a
week's retreat, during which he will
hold no audiences.

Mr. Hubert Henck, theatrical mag-
nate, died at his home in Cincinnati
after an illness lasting many months.

The emperor and empress of Rus-
sia soon will leave St. Petersburg on
their annual cruise in the Finnish
archipelago.

Miss Elizabeth Nye, the famous
sculptress, known throughout Euro-
pe and the United States, died at Austin,
Tex., of heart failure.

BASEBALL SCORES.

National League.

At Chicago, 3; Pittsburgh, 5. Second
game—Chicago, 4; Pittsburgh, 4—thir-
teen innings; called at dark.

At Cincinnati, 1; St. Louis, 4. Sec-
ond game—Cincinnati, 6; St. Louis, 3
—seven innings by agreement.

Reduce Your Fat

Rengo Rapidly Reduces Excess Fat With-
out the Aid of Tiresome Exercises

or Star
COSTS NOTHING TO TRY.

Rengo will reduce excess fat and build up the
strength and health of anyone who eats it regu-
larly for a short time. It is a
product of nature, delicious
to the taste and safe and
harmless in all its properties.
It will not injure the digestive
organs, as so many drugs and
medicines do.
Rengo will positively reduce
surplus fat rapidly and do so
without harm to the subject.
It is very palatable and
pleasant to eat. It is prepared in a
highly concentrated form and
is convenient to carry in the
pocket so one can have it with
him at all times.
Rengo requires no exhaust-
ing exercises or starvation
dieting to help out, as so
many of these-called fat remedies do, you can

This Illustration Plainly Shows What Rengo
Has Done.

go right ahead and attend to your regular
daily duties. It compels proper assimilation of
the food and sends the food nutriment into the
muscles, bones and nerves and builds them up
instead of piling it up in the form of excess fat.
There is nothing "just as good" as Rengo.
For sale by all druggists at \$1.00 per full sized
box, or by mail prepaid, by the Rengo Co., 305
Rengo Bldg., Detroit, Mich. If you prefer they
will gladly send you a trial package free by mail.
